Greater Indianapolis

Summary

I am a dynamic Information Technology Professional with a proven history of leading, designing, and developing enterprise-wide software applications. Currently, I serve as an Application Development Manager at Barnes & Thornburg LLP, leveraging my extensive experience as a former Software Engineer. If you are facing a challenging technical issue, I am here to provide innovative solutions.

Experience

Barnes & Thornburg LLP

Application Development Manager
July 2023 - Present

* Leading a team of talented software engineers to develop software solutions.

Software Engineer
June 2006 - July 2023
* Architect of the firm's client/matter intake application ("LINEAR"). This firmwide .NET web application collects all necessary data, approvals, and documentation for each matter opened by the firm. Application integrates with 3E accounting software to ensure a smooth data transfer.

* Developed custom web apps such as the firm's Budgeting Application, Contingency Fee Application, Time-Off Request Application, Internal Recruiting Application, Record Hold Application, and Partner Review Application using C#, VB.NET, Bootstrap, jQuery, and SQL.

* Part of the web team that creates SharePoint Sites, Lists, Document Libraries, and Views utilizing SharePoint Online, Flow, On-Prem, and ShareGate.
